PERSONAL PROJECTS

My favorite teacher (01/2024 - 02/2024)

- The web app simplifies class scheduling for students and teachers. Users can search for teachers, view profiles, schedule classes, utilize a grading system, and provide feedback.
- Tools: TypeScript, Node.js, Angular, MongoDB, HTML, CSS, Bootstrap
- GitHub: <https://github.com/Jaza-dev/Moj-najdrazi-nastavnik>

Schedule (03/2023 - 05/2023)

- The web app allows users to schedule, cancel, and reschedule appointments with different businesses.
- Tools: Laravel, PHP, MySQL, Bootstrap, HTML, CSS, JavaScript
- GitHub: <https://github.com/Jaza-dev/Zakazi>

FORUM (01/2023 - 02/2023)

- The web app enables users to create and edit posts, like/dislike them, search by title, register, login, logout, and modify personal details.
- Tools: Laravel, PHP, MySQL, Bootstrap
- GitHub: <https://github.com/Jaza-dev/Connect---Forum>

ONLINE STORE (2023 - 2023)

- Online app for buying and selling products. Includes client, server, and 3 subsystems. Client uses REST to interact with server, while server communicates via JMS with subsystems.
- Tools: Java, MySQL, GlassFish
